GOLF 2023

The mission of the Southampton Business Alliance is to promote and achieve an acceptable balance between the economic, environmental and social needs of the Town of Southampton. We are a Town-wide advocacy group established to protect the interests of the business community and the thousands of families that rely on those businesses.

We provide a unique government relations function that responds to legislative and regulatory burdens and opportunities in a timely and effective manner. Our strength is in our membership and their support of the actions undertaken on their behalf.

To reach this objective, our Board of Directors and staff work to:

- Undertake the research necessary on topics of local importance.
• Act as an information resource and sounding board for the membership, providing advice and technical information on topics of concern.
• Closely monitor meetings of various levels of local government, to stay informed of the issues as they relate to the residents of the Township.
• Represent the positions of the organization with professional and balanced advocacy, urging a fair resolution of issues.
• Provide assistance and support to members of the community in need, especially our local workforce.
